

## easyMEMO

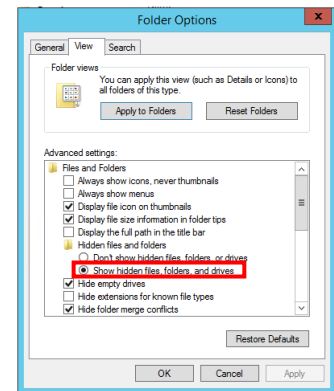

Backup and restore your own formulations

**With this manual, you can save your own mix formulations and reuse them after a new installation of Printcolor's easyMEMO.**

### Preparation: Show hidden folders

Hidden files and folders must be displayed in the folder options:

- › Open the Windows "Control Panel"
- › Select "Folder Options"
- › Select the "View" tab
- › Scroll to "Hidden files and folders" and then select "Show hidden files, folders, and drives"

### Save your own formulations

Create a copy of the following folder:

*C:\Users\[Username]\AppData\Local\VirtualStore\Program Files (x86)\Printcolor*

### Restore your own formulations

On the new computer, place the previously backed up folder here:

*C:\Users\[Username]\AppData\Local\VirtualStore\Program Files (x86)\Printcolor*

After starting easyMEMO your own formulations will be available again.
